

VESPA AO Submission Form 2021

- Please read the [call description](#) before submitting your project.
- Fill out the form below with summarized content, and put all details in the full submission file.
- In case for problem with form or question about your submission, please send a message to the [VESPA Helpdesk](#).

Submit your Project

Contact Information

- Science Contact Name *** Contact person for Science aspects (50 characters max)
- Science Contact Email *** Contact person for Science aspects (Email)
- Technical Contact Name *** Contact person for Technical aspects (50 characters max)
- Technical Contact Email *** Contact person for Technical aspects (Email)
- Proposer Postal Address *** Address of Science contact (100 characters max)
- Proposer Lab or Institute *** Institute of Science contact (50 characters max), more details can be put in the submitted file.
- Proposer Country *** Country of Science contact (50 characters max), more details can be put in submitted file.

Project Information

- Project Title *** This the title of your project (200 characters max)
- Science Field *** Lab and Reference DataPlanetary SurfacesSolar and MagnetospheresEphemeris and Small BodiesPlanetary AtmospheresExoplanetsSub-surface and Interiors
Select one or several applicable fields
- Science Description *** Describe the science objective of the project
- Project Context *** Describe the international context of the project
- Technical Description *** Describe the technical infrastructure (software, database, hardware) of the project
- Potential Audience *** Describe the potential audience of the project
- Relevant Publications *** List the publications related to the project
- Data Status *** Describe the origin and rights of the data
- Use Cases *** Describe one or several use cases to explain a typical use for research or education

Data Information

- Data Processing Level** * Describe the processing level of the data included in the service
- Data Usability** * Describe the data usability or readiness level
- Data Format of distributed files** * raw-binaryraw-asciiFITSVOTableCDFnetCDFHDF5Proprietary (IDL, Matlab...)other
Select the main data format(s)
- Number of data products** * Number of distributed products
- Size of database** * Size in MBytes
- Database Evolution** * Describe if the database is final or how it will evolve
- Database Time Coverage** If applicable, give the temporal coverage of the database
- Data Rights and Location** * Describe who is owning the data and where is it hosted
- Type of Database** * Describe briefly the database type, e.g., just a bunch of files, MySQL, PostgreSQL, XML database...
- Service sustainability** * Describe your maintenance and sustainability plans

File Upload

Upload your complete proposal application.

- File** * PDF file (<5MB)

Submission Section

- captcha** * **9 P C 8**
